

Montfavet, le 17/02/2025

Certificate of exclusivity

The almond array Axiom PdSNP_V1 was designed in 2021 by the INRAE GAFL unit in association with Thermofischer. To date and until 2026, the owner of the almond chip PdSNP_V1 is INRAE GAFL and for this reason, the genotyping of almond genotypes with this Axiom almond array can only be done exclusively by the INRAE platform.

Henri Duval,

Responsible of the INRAE almond program
