The following scores are available to the Selection Commission:

- up to 60 for the evaluation criteria referred to in a) and b);

In all cases, the public nature of the examination must be ensured through digital means.

The Commission shall prepare a merit ranking based on the scores obtained by candidates. The selection shall be deemed successful upon achieving a minimum score of 60 points, of which at least 30 points must be awarded for the oral examination.

In the event of a tie, preference shall be given to the younger candidate, unless otherwise specified by specific projects and their related funding programs.

The Commission may, providing reasons in the report, make use of online tools for collegial work and may hold its sessions remotely.

Art. 6 – End of the procedure

The Evaluation Committee must complete its work within a maximum period of thirty days from the receipt of candidates' applications. Upon a reasoned request from the Chair, an extension of an additional thirty days may be granted by the Rector.

If the work is not completed within the aforementioned period, the Rector, by reasoned decree, shall initiate the procedures for the replacement of the Committee, establishing at the same time a new deadline for the completion of its work.

The competition records and the corresponding merit ranking, together with the appointment of the winner, shall be approved by Rector's decree.

The records shall be published on the University website, within the terms and according to the procedures set out in the call for applications, and in compliance with regulations regarding transparency and data protection.

Within a maximum period of 60 days from the date of publication of the Rector's decree approving the records, and in the presence of additional justified needs for carrying out the same activities, the Department/Unit Council may, by specific resolution, propose the assignment of further post-doc positions to candidates who have been successfully ranked, provided that the availability of financial coverage is verified.

The validity of the merit ranking shall cease at the end of the probationary period of the contract holders.

Art. 7 – Stipulation of the contract

The employment relationship is established following the signing of a specific written contract between the University and the successful candidate.

The employment contract is signed by the post-doc contract holder and by the Rector.

The contract should preferably be signed within 30 days following receipt of the convocation, without prejudice to any stricter time limits specified in the call for applications.

Failure to comply with this deadline shall result in the loss of the right to the contract.

In cases of particular, justified, and documented needs, the signing of the contract may be postponed beyond thirty days, but in any case for no longer than sixty days from the date of convocation; exceptions apply to requests for extensions due to pregnancy and postpartum, or serious and documented illness. If the contract is not signed by the winner of the selection procedure, the next candidate in the merit ranking shall be offered the position.

The Department Director shall sign and forward to the competent Administrative Office the letter concerning the commencement of service of the post-doc contract holder.

Except for the positions referred to in Article 2, paragraph 3, post-doc research contracts are subject to a probationary period of three actual months of service; any negative evaluation shall be the responsibility of the Scientific Director of the activities. The probationary period is suspended in cases of absence due to illness or injury. In such cases, the contract holder is entitled to retain the position for a maximum period of six months, after which the employment relationship shall automatically terminate without the need for any communication and without any entitlement to notice or other compensation. If the probationary period concludes without the employment relationship being terminated by either party, the contract holder shall be considered confirmed in service, and seniority shall be recognized from the date of hire for all purposes.

At the conclusion of the contract, the post-doc contract holder must submit a report on the activities carried out, countersigned by the Scientific Director, accompanied by the evaluation expressed by the Department Council or Autonomous Budget Center, and including the scientific output in the case of research activities.

Post-doc research contracts do not confer the right of access to permanent positions at universities, public research institutions, or institutions whose diploma of advanced scientific specialization has been recognized as equivalent to a doctoral degree pursuant to Article 74, fourth paragraph, of Presidential Decree No. 382 of 11 July 1980, nor can they be counted for the purposes referred to in Article 20 of Legislative Decree No. 75 of 25 May 2017.

Art. 8 – Prohibition of Concurrent Appointments and Incompatibilities

Post-doc research contracts cannot be combined with scholarships or research grants of any kind awarded by national or foreign institutions, except for those exclusively intended for international mobility for research purposes.

The post-doc research contract is not compatible with enrollment in undergraduate, graduate, or master's degree programs, doctoral programs, or medical specialization courses, in Italy or abroad, except in cases of specific European Union research funding programs under the Marie Skłodowska-Curie Actions (MSCA). It also requires leave of absence without pay for employees serving in public administrations.

Post-doc research contracts are incompatible with:

- any other employment relationship, including part-time or fixed-term contracts, with public or private entities;
- holding research grants, including at other universities or public research institutions.

Post-doc research contract under Article 22-bis, research fellowships under Article 22-ter, research contracts under Article 22, and contracts under Article 24 are mutually incompatible and cannot be held simultaneously by the same individual. In any case, the post-doc contract holder may not engage in activities that could create a conflict of interest with the activities of the University of Palermo.

The post-doc contract holder may carry out teaching or “third mission” activities only if these are coherent and connected with the activities specified in the call for applications.

Art. 9 – Income, tax, social security and insurance treatment

The contractor is entitled to a gross salary of € 28,456.48 for the duration of the contract, including the costs borne by the recipient.

Art. 10 – Terms of Employment

The post-doc contract holder organizes their work activities in coordination with the Scientific Director. The post-doc contract holder is subject to the medical examinations required under Legislative Decree No. 81/2008, at the expense of the University.

Disciplinary authority is governed by Article 10 of Law No. 240 of 30 December 2010.

Post-doc contract holders are entitled to the provisions of Legislative Decree No. 151 of 6 March 2001 regarding the protection and support of maternity and paternity, Law No. 104 of 5 February 1992 concerning assistance, social integration, and the rights of persons with disabilities, and Articles 37, 40, and 68 of Presidential Decree No. 3 of 10 January 1957, as subsequently amended, regarding extraordinary leave and leave for illness. Leave for illness may not exceed nine months in the case of a two-year contract. In the event of an extension, the period of leave for illness must be proportionate to the duration of the contract.

Post-doc contract holders are also entitled to the provisions of Articles 69 and 70 of Presidential Decree No. 3 of 10 January 1957, as subsequently amended, concerning leave for family reasons. Leave for family reasons may not exceed twelve months, during which the applicant is not entitled to any salary or social security contributions. Leave for family reasons must be authorized by resolution of the relevant Department Council.

Art. 11 – Termination of Employment

The termination of the employment relationship is determined by the expiration of the contract term, by the withdrawal of either party, or by any other cause of termination provided for by the applicable law.

During the probationary period, either party may withdraw from the contract at any time, without any obligation of notice or compensation in lieu of notice. Withdrawal takes effect from the moment of communication to the other party.

After the probationary period and until the expiration of the contract term, either party may still withdraw from the contract if a cause arises that, pursuant to Article 2119 of the Civil Code, makes the continuation of the relationship, even temporarily, impossible.

Following the conclusion of the probationary period, the post-doc contract holder may withdraw in writing by giving thirty (30) days' notice. In the absence of such notice, the Administration shall withhold from the post-doc contract holder an amount corresponding to the remuneration for the period of notice not provided.
