CERTIFICATE OF UNIQUENESS / PROPRIETARY CERTIFICATE

PSI (Photon Systems Instruments), spol. s r.o. declares that construction and functioning of the **handheld fluorescence measuring system in suspensions - AquaPen AP 110/C** - is unique and according to our knowledge, PSI, spol. s r.o. is the sole system manufacturer and distributor of this system in the world.

Hereby, we confirm that PSI (Photon System Instruments) is the producer of the handheld fluorometer device "AquaPen AP 110/C."

AquaPen AP 110/C features a portable, battery powered fluorometer including both USB and Bluetooth communication module, inbuilt GPS module, dedicated software, and measuring cuvette for fluorescence detection in suspensions. Measured parameters are Ft, QY, NPQ (2 different protocols), OJIP, Light Curve (3 different Protocols), and optical density.
